

Universal Splice Tray

The Optronics universal splice tray is the perfect fibre management solution ; each tray fits easily into any fibre enclosure such as patch panels, lockable wall boxes and can be stacked to accommodate higher fibre counts. Each tray is 80mm x 155mm x 7mm (WxLxD) supplied with a lid for added protection to the internal managed fibre. Each tray requires splice holders which are sold separately.

NOTE : Splice holders are not included please see below for part numbers
