Features and Benefits

- Independently tested and guaranteed to exceed all component, permanent link, and channel margins
- Patented Retention Force Technology (RFT) protects against time damage from 4- or 6-pin plugs
- Unique design supports tool-free termination/re-termination and requires no specialized termination tool
- Short connector design supports a wider range of applications (e.g. shallow boxes, enclosures, bend radius, etc.)
- Terminates from 26 to 22-gauge solid or stranded jacks for use on various cable types
- Robust IDCs can withstand 20 re-termination cycles and connector contacts are tested for 750 plug-mating cycles to ensure system longevity
- Available in 13 ANSI/TIA-606-B compatible colors for color coding or organization
- Interchangeable icons (voice, data, A/V, and blank, color coded to match the jack face) available separately for easy identification and tracking of data, voice, or other functions
- Jack with internal shutter is available to protect against dust and debris
